HIGHLY WEATHERPROOF

All surfaces are designed to be highly weatherproof (HWF). This coating is characterized by a significantly higher weatherability and colour fastness compared to standard coatings.

In the case of anodized (GMA) and wood decor paints (HDS), it should be noted that colour deviations or structural deviations from the respective sample may occur due to the batch. This is not a reason for complaint.

WEATHER TEST

After 10 YEARS of weathering, the HWF-coating of KNEER-SÜDFENSTER is much less faded

* Special colours not possible for entrance doors

✓ **HIGHLY WEATHERPROOF**
- UV-resistant
- corrosion-resistant

✓ **MODERN LOOK**
- matt surface
- trendy colour palette
- innovative

✓ **FINE STRUCTURE**
- shockproof
- scratch resistant
- robust
- no fingerprints visible

Explanation of the surfaces

FME - fine structure metallic
GMA - smooth matt
FMA - fine structure matt
HDS - wood decor structured
